# Your Wedding Photography Plan

Your wedding is an event full of individual moments that as the bride and groom are easily missed and/or forgotten. As your photographer, I will capture those moments so that you can share and remember with your friends and family.

As a photographer, I enjoy the opportunity to photograph people being natural, hence I use my skills to be as non-intrusive as possible. I also recognize the need for those more formal photographs. I work with my clients to script the exact style they want their wedding photos to reflect.

Jana  
and  
Adam

Megan and  
Chuck

Rebecca and Nick

## Scripting Your Wedding Photos

Working with my clients, we will determine where, who and how many photos will be taken at each location. We will also determine if the photographs should be formal and/or candid.

Your script may include any or all of the following:

1. Engagement Picture/Wedding Picture for use in the paper.
2. Pre-ceremony pictures of the bride, groom and various attendants and family members.
3. Pictures of the actual ceremony.
4. After-ceremony pictures at locations selected by the bride and groom.
5. Reception pictures including formal pictures and candid photography of the various events.
