My Photography

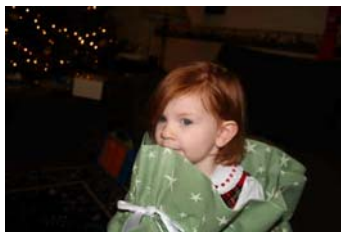

Photography captures a moment in time that we want to remember. We use photography to experience the growth of our children as they participate in various activities and events.

We also have the desire to remember our pets in the same way, I know I do. Capturing them in various fun and competitive events is important to our memory of them.

As your photographer, I will capture those moments so that you can share and remember with your friends and family. I enjoy the opportunity to photograph people and pets as being natural, hence I use my skills to be as non-intrusive as possible. I do not have a studio. Your photographs will be taken in the settings of your choice.

The Frawley Grandchildren

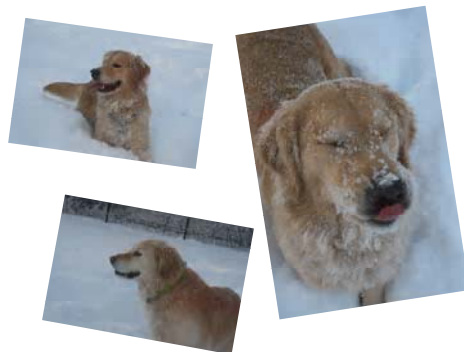

Libby, my grand-daughter

Joe Camerino driving Dells Laser to first place at Vernon Downs

Rebecca and Nick exchanging vows

Peanut Butter and Jelly Bean enjoying the snow
